

100kw solar power plant Hungary

"Hungary continues its goal of diversifying its energy sources with a focus on solar power. We are delighted to partner with Sungrow to contribute to the national ambition to source increasing shares of its electricity from renewable sources by supplying this 100 MW landmark project.

The solar plant is located in Kaposvár, southwest Hungary, and will sell power at EUR0.09/kWh under the country's feed-in tariff regime.

More than two years after Hungary inaugurated the country's largest solar power plant near the southwestern city of Kaposvár. Its mayor said the project is not only supporting Hungary's climate goals, but also serving the interests of the local community.

Hungary will aim at ensuring the long-term security of energy supplies and increasing the share of renewable sources in its electricity generation mix. Sungrow made its first entry to the ...
