A2X takes part in the energy transition in constructing Power-to-X process plants with maximum efficiency and minimal downtime. Our highly experienced team are ready to assist customers no matter where you are in the process of developing your process plant.

Four different companies are behind the six winning projects and can now start building up the production of green hydrogen in Denmark. The Danish Energy Agency can now reveal the winners of the first Danish Power-to-X (PtX) tender ever. PtX is an essential technology in the green transition of Denmark in order to meet climate neutrality by 2050.
