

# American Samoa which company makes the best solar panels

Does Tesla have a solar energy project in American Samoa?

By James Vincent, a senior reporter who has covered AI, robotics, and more for eight years at The Verge. Tesla completed its \$2.6 billion acquisition of SolarCity this week, and, to celebrate, the company has announced a major solar energy project: wiring up the whole island of Ta'u in American Samoa.

Does American Samoa have a solar microgrid?

The island of Ta'u in American Samoa now boasts a solar microgrid from Tesla's SolarCity. Join us in The People v. Climate Change and share an environmental portrait of someone taking positive steps to protect the Earth on YourShot or social media. Use #MyClimateAction to share a first-person perspective on how we as humans face climate change.

Does Maui have a solar-energy microgrid?

Now, the island runs on a completely renewable microgrid that meets 100% of residents' energy needs through solar power and battery storage. In 2016, the founders of Maui, Hawaii-based company Mana Pacific helped design and implement Ta'u's solar-energy microgrid composed of over 5,300 solar panels.

How many people live in Samoa?

(The island's population varies with the season but usually falls between 200 and 600 people.) The solar project was installed by SolarCity, a California-based company recently purchased by Elon Musk's Tesla. The \$8 million project was funded by the U.S. Department of Interior and the American Samoa Power Authority (ASPA).

How many solar panels does Ta'u have?

Located on seven acres of land on the northern coast of the island, the system includes 5,328 solar panels, generating 1.410 megawatts of electricity. The energy can be stored in 60 Tesla Powerpacks --large batteries that allow Ta'u to stay powered for up to three days without any sunlight.

Will a Tesla refuel a Samoan island?

It was funded by American Samoan and US authorities (including the Department of Interior), and Tesla says it will offset the island's use of more than 109,500 gallons of diesel per year, as well as the expense of shipping that fuel in.
