

# Ark wind turbine has wind but no electricity

What is a wind turbine in Ark Survival Evolved?

The Wind Turbine is an item in the Scorched Earth -DLC of ARK: Survival Evolved . Provides electricity by conversion of wind energy. Hold H in the game wherever you are,you'll see (map name) XX% W. This number means the amount of wind the area contains,and indicates roughly how often a turbine (or array of turbines) will produce power.

Can a wind turbine power a chemistry bench?

Turbines at any windspeed lower than 60% effectiveness are simply pointless as for power generation can hardly power a chemistry bench for longer than 20 seconds. The Wind Turbine (Scorched Earth) is treated as a wooden structure and can not be damaged by hands,stone weapons,or non-explosive ranged attacks.

When do wind turbines stop working in Ragnarok?

In single player on Ragnarok wind turbine stop working when <20% of wind. Turbines at any windspeed lower than 60% effectiveness are simply pointless as for power generation can hardly power a chemistry bench for longer than 20 seconds.

Will a generator power down when a wind turbine kicks back on?

Generators using the enabled auto power feature will not power downwhen the wind turbine kicks back on. You will need to manually turn the generator back off. Prior to 281.107,Wind Turbines are affected by electrical storms; however,there was a glitch which prevented the change effect and left them affected by electrical storm.

How do wind turbines work in extinction DLC?

In the Extinction DLC,the Wind Turbine only works in the Wasteland,from 07:00 to 20:00. After some server resets you may need to destroy and place wind turbines again to get them to power electrical grids. Generators using the enabled auto power feature will not power down when the wind turbine kicks back on.

Does the wind turbine work in aberration DLC?

In the Aberration DLC,the Wind Turbine doesn't work in most of the map,except in some uncommon areas called "Wilderness" that have 100% wind strength. Two of those areas can be found respectively at the end of the two tunnels that lead to the Southwest Surface. Another one of these "Wilderness" areas is located in a radioactive zone.
