AVANGRID, through its subsidiary Avangrid Renewables, is a leading developer of onshore wind and solar and is pioneering the development of offshore wind in the U.S. In addition to Vineyard Wind 1, Avangrid Renewables is a partner on Park City Wind, an 804 MW project that will serve the state of Connecticut, as well as additional lease areas ...

Renewable energy is electricity made on farms, ranches and ridgelines. Avangrid Renewables makes long-term agreements to site assets such as turbines, substations and access roads on local landowners' properties. We pay landowners for those rights, but we own those assets and so pay any local taxes accordingly.

That project's developer is Avangrid Renewables, a subsidiary of Iberdrola, and a major player when it comes to large-scale renewable in the United States. Headquartered in Orange, Conn., Avangrid owns approximately \$40 billion in assets and operations in 24 US states, with more than 7 GW of owned and controlled wind and solar power facilities.
