BYD has developed the industry-leading Blade Battery, e-Platform 3.0 and Dual-mode hybrid power technology accelerating the once-in-a-century transition from fossil fuel powered vehicles to electric vehicles.

The BYD Blade battery has superior strength with an Aluminum panel and cellular structure. The space utilization rate, volume ratio and energy density was increased by 50% resulting in longer range.

Our BYD B box 5.0 (B-Plus 48V50Ah*2pcs) 48v100ah battery pack which 3 pcs in parallel perfectly meet this requirement, and our customer are satisfied with this products so she introduced us to her friend. Meanwhile it will cut the shipping cost.

It will come soon and when it does we'll sort out the house properly, probably sorting out for the car to top up the home battery. We charge the car from our 10kW solar panels with a charger that only charges when there is excess power going to the grid (so free charges).

Bahamas byd home battery

Fact: While the number of public charging stations is steadily increasing, the majority of EV owners charge at home using their bundled charger. Most EV owners charge up once or twice a week.

The BYD Battery-Box Premium LVL is a lithium iron phosphate (LFP) battery for use with an external inverter. Thanks to its control and communication port (BMU), the Battery-Box Premium LVL scales to meet the project ...

The BYD Battery-Box Premium LVL is a lithium iron phosphate (LFP) battery for use with an external inverter. Thanks to its control and communication port (BMU), the Battery-Box Premium LVL scales to meet the project requirements, no matter how large they may be.
