

Bahamas precision solar

Who is Bahamas solar?

At Bahamas Solar we take care of your project from start to finish. Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The first step to going solar is a site assessment.

How does the Bahamas produce electricity?

In the Bahamas, electricity production can either feed into the larger grid or power a single facility or neighborhood. Traditionally, electricity has been produced through diesel-fueled generating stations on each inhabited island, with power distributed to everyone via overhead lines.

How much does the Bahamian government pay for electricity?

The Bahamian government spends nearly \$400 million a year on imported fuel to keep its power plants running and citizens pay three to four times what people in the mainland U.S. pay for electricity.

Can the Bahamas build storm-proof solar microgrids?

Yes, the Bahamas has been pushing to build solar microgrids that can withstand storms since 2017, after Hurricane Irma, a Category 5 storm, devastated Ragged Island. Prime Minister Minnis made a statement: 'Let us show the world what can be done.'
