

Battery transport box Gabon

Where can batteries be shipped?

Batteries can be shipped on all main modes of transportation used in logistics: air, ocean, road, and rail. However, there are some different regulations and requirements depending on the mode of transport. Below we cover general guidelines applicable to all transport modes, but check the following dangerous goods regulations for specific info:

Does Obexion ship lithium batteries?

Obexion is engineered specifically for shipping and storing lithium batteries and devices that contain them. We have a wide variety of Lithium Battery Labels and Cargo Aircraft Only Labels, as well as a team of label engineers to help answer questions or customize a label for your unique needs.

Where can I find UN certified battery packaging - hazmat boxes?

Find a variety of UN Certified Battery Packaging - Hazmat Boxes - at Labelmaster. We have top quality lithium battery shippers and battery shipping kits. Many items ship next day!

Can I ship a lithium ion battery by air?

For this reason, any battery that is suspected or known to be defective (swelling, corroding or leaking, for example) is not permitted for shipping within the DHL Express network. When you're shipping lithium-ion batteries by air, it's essential to follow specific regulations regarding their state of charge (SoC).

What documents do you need to ship a lithium battery?

Transport Document: For lithium battery shipments, this specifies the UN number, shipping name, hazard class, packing group, and total quantity. Pilot Notification: For shipping lithium batteries by air, pilots must receive written information on the presence and location of lithium batteries.

What types of batteries can I mail or ship internationally?

There are many types of batteries that have different requirements when you wish to mail or ship them internationally: Wet batteries, also known as flooded lead-acid batteries, are commonly found in vehicles and backup power systems.
