

Belarus solar distribution companies

What is the energy sector in Belarus?

Belarus's energy sector is dominated by state-owned companies operating under supervision of the Ministry of Energy in electricity, gas and part of the heat sector, and under BelNefteKhim (Belarus State Concern for Oil and Chemistry) in the oil, refining and petrochemicals sector.

Who regulates electricity in Belarus?

Belarus does not have a single independent energy regulatory authority. The Ministry of Antimonopoly Regulation and Trade is responsible for regulating electricity and heat tariffs for industrial customers, independent suppliers and all categories other than residential consumers, based on the 2011 Decree on Price Tariffs.

What does the republican unitary enterprise Belarusian nuclear power plant do?

In accordance with Presidential Decree No. 583 of December 2013, the Republican Unitary Enterprise Belarusian Nuclear Power Plant performs the functions of holder and operating organisation for commissioning, operations, performance control, lifetime extension and decommissioning of the Belarusian NPP.

Where does Belarus get gas from?

Belarus transits gas from Russia to Ukraine, Poland, Lithuania and Russia's Kaliningrad region (through Lithuania). Gazprom-TransGaz operates the Yamal-Europe transmission pipeline that provides gas to Germany and is owned by Gazprom.

How does dbrb finance projects in Belarus?

The Development Bank of the Republic of Belarus (the DBRB) can finance long-term projects of major social and economic importance through direct lending or financing by leasing, or can act as an intermediary to attract borrowed funds from the financial market. Other Belarusian commercial banks can finance projects through the securities market.

Will ENTSO-E improve the reliability of Belarus's energy system?

The strategic plans of the Baltic States' and Ukraine's energy systems to join the European Network of Transmission System Operators for Electricity (ENTSO-E) energy system have reduced the external connections - and thus the reliability - of Belarus's energy system.
