

Best power stations Sint Maarten

Does St Maarten have electricity?

Electricity in St. Maarten (Dutch side) is exactly the same as the United States with a 110 voltage at 50 Hz standard. Standard US plugs and appliances are compatible too. On the other side, St Martin (French side) has a 220 voltage at 60 Hz. French plugs are required.

What type of power socket does Sint Maarten use?

The power sockets on Sint Maarten are of type A and B. The standard voltage is 110 V at a frequency of 60 Hz. You need a power plug (travel) adapter on Sint Maarten.

Do you need a power plug adapter on Sint Maarten?

On Sint Maarten, they use power sockets (outlets) of type A and B, like in the United States. You need a power plug adapter on Sint Maarten for sockets type A. Sockets type B can fit your plugs, but may not always be available locally. We don't sell power plug adapters.

Do I need a voltage converter on Sint Maarten?

You don't need a voltage converter on Sint Maarten. To be sure, check the label on your devices. Some devices never need a converter. If the label states 'INPUT: 100-240V, 50/60 Hz' the device can be used in every country in the world. This is common for devices with chargers like tablets/laptops, photo cameras, cell phones, toothbrushes, etc.

What is Sint Maarten's national energy policy?

renewable energy.¹⁰ The plan also emphasizes the need to raise awareness of energy conservation among individuals and businesses through communication campaigns. Sint Maarten developed a National Energy Policy (NEP) in 2014 that aims to mitigate the impact of energy use on the environment while reducing electricity tariffs.
