

Bonaire Sint Eustatius and Saba solar with battery

How will solar power and battery energy storage help Bonaire?

The addition of solar power and additional battery energy storage capacity will complement and add to the benefits of wind power generation and energy storage on Bonaire, further improving grid efficiency and resilience, lowering costs and reducing GHG emissions further, Narminio pointed out.

Does Bonaire have a smart energy storage system?

Grid power and electricity service on the Caribbean island of Bonaire has improved substantially as a result of the addition of a new, smart, battery-based energy storage system (BESS) to its hybrid wind-dual-fuel engine-based power grid.

Are Bonaire and Sint-Eustatius honoured?

Late last week, the good news was received that the project proposals of Bonaire, Sint-Eustatius and Saba were honoured. They are the only islands in the Caribbean whose proposals made it through the selection.

What is the population of Bonaire Sint Eustatius and Saba?

The total population of Bonaire, Sint Eustatius and Saba was 26,500 in January 2022. The population increased by 211 (+0.8 percent) compared to the previous year. The population is 26,500 with 48.4 percent being female and 51.6 percent being male.

Can Bonaire 'green' its energy mix?

Known as a Caribbean mecca of sorts for SCUBA divers and marine life in the Caribbean, Bonaire's government has been keen to "green" its energy mix and help stem the rising tide of greenhouse gas (GHG) emissions, global mean temperature and sea levels.

Is Bonaire regulated?

An overseas territory of the Netherlands, Bonaire's electricity market is strictly regulated by government authorities. Any type of grid investment needs their approval, Narminio explained. "Bonaire wants to see [electricity] tariffs go down.
