Who is attracting foreign investment to Bosnia & Herzegovina?

The government agency responsible for attracting foreign investment to Bosnia and Herzegovina has successfully pitched the municipality of Grude to Norwegian renewables company Greenstat. Bosnia's Foreign Investment Promotion Agency (Fipa) said last week that the Bergen-based developer has started working on the 45 MW Petjnik solar plant.

When will a 'petjnik' solar plant be built?

Bosnia's Foreign Investment Promotion Agency (Fipa) said last week that the Bergen-based developer has started working on the 45 MW Petjnik solar plant. Fipa said construction will begin in June, with panels to be installed from the first quarter of 2023. The site will be commissioned at the end of 2023.

The key factor that has influenced this trend is an increase in the electricity prices for industrial customers from 1 January 2022 by 20% (in the Federation of Bosnia and Herzegovina). As a reaction to this price increase numerous small and medium-sized companies have decided to invest in solar power

The key factor that has influenced this trend is an increase in the electricity prices for industrial customers from 1 January 2022 by 20% (in the Federation of Bosnia and Herzegovina). As a ...

In general, there is a good potential in Bosnia for the production of electricity from RES, including PV panels. According to data collected from PVGIS yearly PV energy production in Bosnia from 1kWp installed power could be anywhere between 1100 up to 1520 kWh depending on exact location and the observed period of data.

IRENA's report found that if Bosnia and Herzegovina complied with EU legislation - underpinned by the major target of 42.5% of renewable energy generation by 2030 - as a member state there ...
