

Are ZTE cabinets scalable?

All of ZTE's small cabinets are designed with scalability, supporting the ODF capacity redundancy of 50%-85%, 1+1 redundancy backup for the power rectifier, heat dissipation of high-power XGS-PON cards, and 2-5.2 hours of backup power when the equipment operates in its full configuration.

What is a ZTE Olt cabinet?

ZTE's small OLT cabinets use an aluminum enclosure with outstanding anti-corrosion performance and is at least 30% lighter than the galvanized iron cabinet of the same dimensions. They support flexible installation modes such as pole-mounted and wall-mounted installation.

What products does ZTE offer?

In addition to the small-capacity OLT outdoor cabinets, ZTE can also provide end-to-end FTTx series products covering the EMSs, cabinets, OLTs, ODNs and ONTs to meet the overall network construction requirements of operators.
