We are one of the world's largest investors in renewable power and transition assets and have almost 34,000 megawatts of generating capacity. We operate across five continents, managing a diverse portfolio of hydro, wind, solar, distributed energy, storage and sustainable solutions.

Our renewable power portfolio grew significantly when, in 2016, SunEdison filed for bankruptcy, and we acquired its TerraForm Global and TerraForm Power subsidiaries. The portfolio comprised 3,700 megawatts of wind and solar assets--enough to power about one million U.S. homes.

Our diversified portfolio of hydropower, wind, solar, distributed energy resources and storage facilities extends across 34 states, totaling approximately 7,806 megawatts of renewable generating...
