

Centric energy Taiwan

Who is Centrica Energy?

Centrica Energy is our global energy trading and logistics arm. We trade power, gas, LNG, and energy attributes and connect producers, suppliers and offtakers in the wholesale energy markets - and we provide our clients with the best route-to-market services available to the market today with physical and financial settlement approaches.

How can companies improve Taiwan's energy supply?

Therefore, as Amanda said, fossil fuels -- including imported coal and natural gas -- generate nearly 85% of Taiwan's electricity. To counter these obstacles, companies can play a crucial role in developing new strategies to increase renewable energy supplies and promote emerging technologies.

How much green energy has been sold through the T-Rec program?

More than 700 million kWh of green energy had been sold through the T-REC program as of November 2020, surpassing government expectations according to the Bureau of Standards, Metrology, and Inspection at the Ministry of Economic Affairs (MOEA). The latest batch of T-RECs also brought onshore wind into the fold.

What is Taiwan's energy mix?

Taiwan is also targeting an energy mix of 20% renewables, 50% natural gas, and 30% coal by 2025 - a substantial reduction for the role of coal in Taiwan power generation, and with Liquid Natural Gas (LNG) the most significant and growing source in Taiwan's energy mix.

Does Taiwan have a carbon-free energy goal?

Since then, Taiwan has achieved a significant cumulative contracted capacity through corporate PPAs, becoming one of the leading corporate PPA markets in the Asia-Pacific region. Continued progress on our carbon-free energy goal is happening across Asia Pacific with recent announcements in Australia and Japan.

Can Taiwan become a green energy hub?

But as the sector matures and a green energy ecosystem is catalyzed, Taiwan can reformulate its approach to promote national techno-economic competitiveness and to differentiate itself as a cut above the rest. This would mean positioning Taiwan not only as a renewable energy hub but as a reputable and trusted global green energy leader.

Centrica Energy is an energy trading company operating out of eight offices across all time zones to move energy from source to use. Our mission is to drive the green transition while offering sustainable and predictable energy costs for energy producers, suppliers and offtakers.
