

What is Centrica Storage Limited?

The long term aim for Centrica Storage Limited is to turn Rough into the largest long duration energy storage facility in Europe, capable of storing both natural gas and hydrogen with the goal of bolstering the UK's energy security. Formerly Centrica Storage Limited (CSL), we have recently changed our name to signify a change in ambition.

What does Centrica Energy Storage do?

A key element of the infrastructure area of the Centrica family, Centrica Energy Storage operates the Easington onshore gas processing terminal in East Yorkshire and restarted gas storage operations at the Rough facility in the Southern North Sea in 2022, with a view to bolstering the UK's energy security and helping to reduce consumer bills.

Who are Centrica Energy Storage Limited (CES+)?

Centrica Energy Storage Limited (CES+) are part of the infrastructure area of the Centrica family.

Who is Centrica Energy?

Centrica Energy is a renewable energy trading company operating out of eight offices across all time zones to move energy from source to use. Our mission is to drive the green transition while offering sustainable and predictable energy costs for energy producers, suppliers and offtakers. In short, we call ourselves energy movers by nature.

Does Centrica have a role in the energy transition?

Centrica has a role at every step of the energy transition. When it comes to energy, we make it, store it, move it, sell it and mend it. Find out how we're energising a greener, fairer future. Net Zero isn't next, it's now. Join us on our mission to energise a greener, fairer future. Supporting our customers through...

Who are Centrica Energy & Taaleri Energia?

Somewhat further afield, Centrica Energy, alongside leading renewable energy developer and fund manager Taaleri Energia and Lords LB Asset Management, a Lithuania-based fund manager, announced the signing in March of a Power Offtake Agreement for the Rokiskis and Jonava wind farms.
