

Are EnerSys products sustainable?

EnerSys products are sustainability products. Our energy storage and energy systems enable customers across the globe to meet their energy and carbon emission reduction goals while providing reliable and affordable energy access.

Does EnerSys sell batteries?

EnerSys also manufactures and sells related DC power products including chargers, electronic power equipment and a wide variety of battery accessories. Their battery products cover a broad range of sizes, configurations and electrical capabilities. EnerSys, in 2000, acquired Yuasa's industrial division. The Hawker Group merged with EnerSys in 2002.

What does EnerSys do?

EnerSys is a stored energy systems and technology provider for industrial applications. The company manufactures reserve power and motive power batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure systems.

Who makes EnerSys forklift batteries?

EnerSys is the world's largest manufacturer of industrial forklift batteries and chargers. Almost 65% of the forklifts manufactured today are powered by batteries.

Why should you choose EnerSys® batteries?

When readiness and reliability are paramount, EnerSys® batteries are hard at work in the world's most critical and demanding applications. High performance, low maintenance and long life are the hallmarks of EnerSys products. Power ready to meet the challenge wherever and whenever the mission requires.

What makes EnerSys a sustainable company?

"EnerSys is a sustainability technology company with a clear place in the clean energy future. Our batteries have been changing the landscape of Motive Power for decades, making material handling greener and more cost-effective for our customers.
