

# Climate controlled outdoor cabinet American Samoa

What is a climated controlled outdoor equipment cabinet?

Our floor or pad mount climated controlled outdoor equipment cabinets are ideally suited for Macro Cell Site and Centralized Radio Access Network (CRAN) applications. AZE has developed a line of solutions to assist these deployments with rugged and compact enclosures for today's dynamic cell site needs.

What are climate controlled cabinets & enclosures?

Our climate controlled cabinets and enclosures feature built-in air conditioners, heaters, and thermostats and are ideal for mounting electrical and electronic equipment both indoors and outdoors. The enclosures are designed to provide protection from rain, sleet, snow, ice, dirt, dust and debris.

What makes a good climate-controlled cabinet?

A quality climate-controlled cabinet begins with insulation. At American Products, we recommend all enclosures with climate control be outfitted with insulation. Using insulation helps to control how much heat is allowed in and out of your enclosure. This makes your heater or air conditioner more efficient.

What is an outdoor Telecom cabinet enclosure with air conditioner?

The outdoor telecom cabinet enclosure with air conditioner realizes heat absorption and cooling through compression refrigeration, and transfers the heat emitted by the equipment in the cabinet to the outside of the cabinet in a closed environment of the cabinet. Our outdoor Telecom Enclosures are widely used in the area of:

For climate control, this cabinet comes standard with a thermostatically controlled fan system with a filtered intake. It also features a vented battery compartment that is sealed away from the ...
