

Climate controlled outdoor cabinet Marshall Islands

What are climate controlled cabinets & enclosures?

Our climate controlled cabinets and enclosures feature built-in air conditioners, heaters, and thermostats and are ideal for mounting electrical and electronic equipment both indoors and outdoors. The enclosures are designed to provide protection from rain, sleet, snow, ice, dirt, dust and debris.

What is a climate controlled outdoor equipment cabinet?

Our floor or pad mount climate controlled outdoor equipment cabinets are ideally suited for Macro Cell Site and Centralized Radio Access Network (CRAN) applications. AZE has developed a line of solutions to assist these deployments with rugged and compact enclosures for today's dynamic cell site needs.

What are the requirements for a marine enclosure & climate control system?

For outdoor applications, the enclosures and climate control systems must demonstrate high durability and resistance to aggressive chemicals such as chlorine. The maritime industry must be prepared to face rough seas. On-board and quayside installations must take stormy waters in their stride.

What are HVAC outdoor Telecom enclosures & cabinets?

AZE's HVAC outdoor telecom enclosures and cabinets are designed specifically to protect high density installations of network equipment in outdoor environments and are ideal for wireless, wireline, and utility and applications.

Why should you choose weatherstrong outdoor cabinetry?

With the desire to spend more quality time outdoors, WeatherStrong Outdoor Cabinetry is designed with your lifestyle in mind. Plus, pounding rain, hot summers and cold snowy winters are no match for WeatherStrong's durability, strength and superior weather resistance.

The OD series of NEMA enclosures deliver a rugged, dependable choice for any outdoor racking requirements. Offered in NEMA 3R, 4 and 4X these all weather enclosures provide the highest value in American ingenuity and construction.
