

What makes cristopia a leader in thermal energy storage?

Our leadership in Thermal Energy Storage is a result of over 20 years of continuous technological development based on the latest production and management tools. Due to our skilled and dedicated staff, CRISTOPIA has developed a unique expertise in its field of activity.

Why should you choose cristopia Energy Systems (STL)?

The use of modern technologies permits quality control. The materials transfer fluid. The phase change materials used by CRISTOPIA Energy and abroad. This product development work has led to a very high reliability of the STL. The STL has been conceived for hydraulic applications. Please consult CRISTOPIA Energy Systems for any other application.

Who is cristopia?

AN EXEMPLARY PRODUCTION FACILITY CRISTOPIA is a subsidiary of CIAT Group, the European leader in HVAC with renewable energy solutions. Our leadership in Thermal Energy Storage is a result of over 20 years of continuous technological development based on the latest production and management tools.

What is cristopia STL technology?

costs. The STL technology (Latent Storage) Nodules inside... The CRISTOPIA STL is a Thermal Energy Storage by Phase Change Material (PCM) encapsulation. The STL system is composed of one or several tanks filled with spherical elements (called nodules) containing the PCM. The use of PCM in nodules p

How long does cristopia energy systems warranty last?

CRISTOPIA Energy Systems GUARANTEE 1. CRISTOPIA Energy Systems warrants the STL energy storage manufacturing defects for a limited time under the following conditions. The guarantee time is five (5) years after receipt of the goods. This time will not Energy Systems. 2. STL components must be used normally, meaning in accordance with the

Is cristopia energy systems liable for damage?

CRISTOPIA Energy Systems shall not be liable for any direct, for such damage is based upon warranty, contract, negligence or otherwise. money paid to CRISTOPIA Energy Systems for the particular item involved.

Christian Lenotre is one of the Directors at Kehems Technology in India - Formerly Cristopia Energy Systems (I) Pvt Ltd. An Engineer and graduate from Ecole Centrale, he started in research in thermal energy storage at the Centre Energétique et Processus of Ecole des Mines Paris and founded the company Cristopia Energy Systems where he developed a unique ...

Consult CIAT's entire Cristopia catalogue on MedicalExpo. Page: 1/12. EXAMPLE OF TANK CHARACTERISTICS Consult us for alternative dimensions. Standard pressure drop 2.5 mWG at nominal flow rate - See our technical manual .. A MADE TO MEASURE TANK The dimensions of the tank(s) are calculated based on the plant space available at site and to satisfy the ...

Cristopia has developed a smart system to keep latent heat storage systems running at peak performance and extend their service life. Called Cristo"Control, it is the result of 20 years of ...

Our leadership in Thermal Energy Storage is a result of over 20 years of continuous technological development based on the latest production and management tools. Due to our skilled and dedicated staff, CRISTOPIA has developed a unique expertise in its field of activity.

CRISTOPIA ENERGY SYSTEMS est une SAS, société par actions simplifiée créée en 1982, immatriculée sous le SIREN 817 120 413, dont le siège social est actuellement domicilié au QU CAYREGUES LA CLUE 78 Chemin DU MOULIN DE LA CLUE 06140 VENCE (immatriculé sous le SIRET 817 120 413 00031).

Cristopia CRISTOPIA STL (Storage of Latent heat) technology is widely used in Europe, Asia and North America. It consists of nodules used to store the cooling energy produced by water ...

CRISTOPIA has developed a smart system to keep latent heat storage systems running at peak performance and extend their service life. Called CRISTO"CONTROL, it is the result of 20 years of know-how in thermal energy storage.

The STL is a thermal energy storage system by latent heat with high energy performance. By spreading the thermal energy production over 24 hours, STL ...

Evolucent is the Asia Pacific distributor for Cristopia Energy Systems and CIAT from France. Get in Touch. Reach out so we can work together to reduce peak demand - save electrical costs - build less infrastructure. beau@evolucent 0411 42 65 06 0400 121 731 Sydney, NSW. Opening Hours. Monday 9:00 am - 4:00 pm.

Our leadership in Thermal Energy Storage is a result of over 20 years of continuous technological development based on the latest production and management tools. Due to our skilled and ...

Cristopia CRISTOPIA STL (Storage of Latent heat) technology is widely used in Europe, Asia and North America. It consists of nodules used to store the cooling energy produced by water chillers. The energy is primarily stored at night-time, when cooling demand is lower, and redelivered during the day when greater cooling capacity is needed.

IMREDD partenaires industriels Cristopia Energy Systems Grèce au STL le volume de stockage et les pertes thermiques sont diminuès CRISTOPIA, filiale du groupe CIAT, a centrès ses activitès sur la conception, fabrication et commercialisation des systèmes de stockage thermique à chaleur latente ainsi que des produits de règulation et de supervision. La technologie CRISTOPIA est [...]

Energy costs are on the rise, nations around the world are uniting to fight global warming, and standards are becoming increasingly stringent. One of CIAT's most trusted brands of chillers is now available complete with the technology of CRISTOPIA ENERGY SYSTEMS, a leading name in thermal energy storage. CIAT offers a system that is: - complete,

The STL is a thermal energy storage system by latent heat with high energy performance. By spreading the thermal energy production over 24 hours, STL can reduce the capacity of the chillers by 30 to 70%. It can also reduce the electricity ...
