

# Curaçao tyva energie

Who is Tyva energy?

Our assembly capabilities, located in France within an ISO 9001 certified facility, enable us to meet high production volumes. TYVA Energie is a French manufacturer of lithium batteries since 2013. We develop sustainable and modular batteries solutions to answer specific or high efficiency energetic needs.

Where are Tyva batteries made?

TYVA Energie develops and manufactures sustainable and modular lithium batteries on its production site in Annonay, Ardèche (France). Our various ranges are adapted to your needs and allow you to choose the most suitable product in terms of weight, shape and power.

Why should you choose Tyva energy?

TYVA Energie was really proactive besides demonstrating great responsiveness, which allowed us to develop a promising subsea vehicle with an exceptionally high security level. TYVA Energie's batteries have allowed us to create a vehicle at the cutting edge of technology with an innovative green power source.

Will Aqualectra revolutionize energy management in Curaçao by 2030?

As a part of Aqualectra's ongoing efforts to continue improving its services and better serve the people of Curaçao, this agreement aims to fully revolutionize energy management in Curaçao by 2030, ensuring reliable, affordable, and sustainable energy for the island.

How will a battery energy storage system benefit Curaçao?

The implementation of a Battery Energy Storage System will allow Curaçao to collect energy from renewable sources such as wind and solar energy and store it using advanced battery storage technologies. This stored energy can be released to mitigate the intermittency of wind power and ensure grid stability.

TYVA Energie is more than just a lithium batteries manufacturer, we also provide a large range of benefits to cover all of your needs and assure you personalized complete services. We have the desire to anticipate your expectations and offer you custom services adapted to your products and application fields.
