

Where can I find Das energy PV modules?

All currently available DAS Energy PV modules can be found in the DAS Kraftwerk webshop. Not every roof is dependent on light photovoltaic modules - DAS Energy also offers conventional glass modules for photovoltaic projects in every size and performance class. 12x2M project module - specially designed for standing seam rooftops

Can I get a solar loan in Curacao?

As you can see the more electricity usage you have, the faster you will earn back your one time investment. Many banks already offer so-called "green loans", financing the purchase of your solar system on Curacao for a monthly installment that may be even lower than the monthly price you pay for electricity now.

How much does electricity cost on Curacao?

On Curacao, the costs per kWh calculated in 2012 is ANG 0,73. If you are a home owner, commercial property owner or owner of an industrial building on Curacao, please have a look at your electricity bills and calculate the average amount of kWh you use and the money you spend on electricity per year.

Can Das energy modules be used on a standing seam roof?

DAS Energy modules are designed in such a way that they can be integrated into any aluminum roof and facade system. An example for the use of DAS Energy PV modules on standing seam roof is shown at the modern and largest waste incineration plant in Kraków, Poland.

What are Das energy modules used for?

DAS Energy's modules are ideal for mobile homes, campers, boats, tents and electric vehicles such as golf carts - areas where conventional glass modules are out of the question due to their heavy weight. DAS Energy's modules can also serve as a stand-alone power source for street lighting, surveillance cameras, parking meters, etc.

How can Das energy modules be installed?

DAS Energy modules can be installed in a variety of ways and affixed with glue, screws, rivets, magnets or grommets on all types of roofs and facades. Our experienced specialists support you from the first consultation to the installation of your photovoltaic system and accompany you on the way to your clean energy solution.

Since 2024, our sales and installation partner, DAS Kraftwerk GmbH, has been working with us to plan and install your DAS Energy PV system. Our flexible solar modules are particularly suitable for roofs with limited load-bearing capacity, as well as for foil and bitumen roofs.

DAS Energy photovoltaic modules differ significantly from conventional glass-foil modules due to their low weight and are also ideally suited for roofs with low load-bearing capacities due to their flexibility and lightness. Installation is simple, as the modules can be glued directly to the sheet metal, bitumen, glass or membrane roof.
