

E2c energy Tokelau

Who is E2C energy?

"E2C Energy has been an indispensable partner in our solar product procurement. Their efficient energy solutions and excellent customer service have brought significant cost savings and growth to our business."

"E2C Energy's commitment to sustainability and expertise in renewable energy are admirable."

Can Tokelau support itself with solar energy?

Tokelau, an island nation in the South Pacific, is now completely able to support itself with solar energy. Elly Earls met Joseph Mayhew of the New Zealand Aid Programme to find out how this tiny collection of atolls has become almost 100% self-sufficient in less than 12 months.

Where does Tokelau get its electricity from?

Except for that part of the electricity supply provided by Solar Photovoltaic (PV) to TeleTok facilities on all three atolls and the University of the South Pacific (USP) facility on Atafu, essentially all energy in Tokelau currently is from imported petroleum.

Why should you choose E2C energy?
