

Eaton Energy Storage Cabinet

Why should you use Eaton's energy storage system?

With Eaton's energy storage systems, homes and businesses gain access to a safe, reliable and efficient power management that harnesses the full potential of renewable sources. Now you can store energy when it's available and when rates are at their lowest, and use it when you need it.

Who is Eaton energy storage?

Leveraging more than 100 years of experience, Eaton is an innovator in the field of Energy Storage. Providing control systems, transformer, grid interface switchgear, low-voltage switchboard, cable tray and various commissioning services, we work with partners to create solutions that combine several aspects of energy storage needs in one.

What is Eaton xStorage compact energy storage?

The Eaton xStorage Compact energy storage system enables buildings owners and facility managers to solve power management challenges for their small and medium commercial and industrial sites. Eaton xStorage Compact helps them increase local renewable energy consumption and integrate the charging infrastructure for electric vehicles on site.

What is the Eaton External Battery Cabinet (EBC)?

The Eaton External Battery Cabinet (EBC) is a component that provides extended emergency short-term backup power for the 93E 20-30 kVA and 40-60 kVA UPS systems. It enhances the usability and reliability of the systems by safeguarding operation during power interruptions such as brownouts and blackouts, offering cost-effective extended battery run time.

How is the Eaton cabinet shipped?

The Eaton cabinet is shipped bolted to a wooden pallet (for 30EBC) or a wooden and metal pallet (for 60EBC) and covered with outer protective packaging material (see Figure 10).

Why should you choose Eaton?
