Who is ecobat?

Connect with one of our representatives. With operations throughout Europe and the United States, Ecobat is a leader in the collection, recycling, production and distribution of energy storage solutions, lead and polypropylene products, and other commodities essential to modern life.

Who is ecobat battery?

Ecobat Battery manages the procurement and sale of energy storage solutions. We supply batteries for a wide range of uses, including automotive, commercial vehicle, marine and leisure, motorcycle and industrial applications.

Who is ecobat resources?

Ecobat Resources is the leader in the responsible recycling and production of resources essential to modern life. Backed by an international network of smelters, we are the world's largest producer of lead and lead alloys used in energy storage solutions and a range of other industrial and commercial applications.

What is ecobat & how does it work?

Powering tomorrow, starting today. Ecobat is a world leader in the production of lead, lead alloys, and the recycling of lead batteries. Our vast network features 11 smelters across two continents with an average annual output of 840,000 tons of lead.

What has ecobat done for the battery industry?

Ecobat continues to make headlines for breakthroughs in lead production and recycling. Discover what we've accomplished lately and our impact on the industry. For 30 years, our worldwide engagement with researchers has led to more efficient battery performance.

Who is ecobat battery Belgium?

Ecobat Battery Belgium is part of Europe's largest independent importer of batteries, and distributes a wide variety of the biggest brands, with a permanent stock of more than 100,000 batteries. This facility's excellent logistics enables them to offer optimum service.
