BESS Solutions . BESS stands for Battery Energy Storage System. The BESS is a new and innovative solution that emerges from new market needs during the energy transition. ELINEX delivers complete BESS projects and (after) service in power ranges from 20kWh to 2MWh or multiples thereof.

Besides being a service provider, ELINEX also manufactures various solutions. Within our own portfolio, we introduce the EL Power conditioner, the ELINEX Power Container, Residential NSA, and the brand-independent UPS, NSA, and battery monitoring solution BACS in combination with EPMS to the market.

At a time when sustainability and efficiency are key, ELINEX offers solutions that not only meet current laws and regulations, but also contribute to a cleaner and more efficient future. One of these solutions is the Stage V generator. Designed to meet the most strict emission standards, these generators are a crucial part of a modern energy ...

The ELINEX Power Management System (EPMS) is a monitoring solution for both UPS and NSA systems, comprising of hardware and software. EPMS is brand-independent, and therefore offers the ability to manage different manufacturers in one platform. ... The EMPS and BACS solutions fit perfectly within ELINEX's philosophy: Emergency power with 24/7 ...
