

Eneco energy trade b v Burundi

What is Eneco Energy Trade?

Eneco Energy Trade is the only integrated energy trading platform in the Netherlands. This sets us apart from all other Dutch energy companies that have their trading floors abroad. For new providers and project developers, we are an important and accessible gateway to the energy market.

Where is Eneco located?

Eneco, the trading name of Eneco Groep N.V., is a producer and supplier of natural gas, electricity and heat in the Netherlands, serving more than 2 million business and residential customers. The company's headquarters are located in Rotterdam. It also carries out energy trading and is involved in sustainable energy projects.

Who is Eneco?

Started in 2000 as a trading unit within Eneco, we have grown into the connecting link for climate-ambitious parties in the European energy chain. This goes beyond the daily buying and selling of (our own) renewable energy.

What happened to Eneco Energy?

ENECO Energie became the third-largest energy company in the Netherlands and a supplier in three of the four major cities. In mid-2008, the company started to pay more attention to renewable energy. On 15 June 2009 it was announced that Eneco Holding had taken over parts of the bankrupt E-concern.

How does Eneco support sustainable innovation?

Additionally, we support our own business units within Eneco to continue investing in green innovation and new propositions. Sustainable innovation is more than developing new technologies to generate, distribute, and store renewable energy.

What does Eneco stand for?

Eneco was founded on January 1, 1995 under the name ENECO, as a merger of the municipal energy companies of The Hague, Dordrecht and Rotterdam. ENECO stands for 'Energy and Communication'. In July 2000, ENECO N.V. merged with six other regional energy companies as a result of the liberalization policy of the Dutch government.
