

Ariya Finergy incorporates innovative technology to provide competitive solar heat for industrial demand. In partnership with Absolicon, we delivered a 330m² aperture area solar thermal field to Iberafrica Power (E.A.) Limited in Nairobi, Kenya. This project is the first of its kind in East Africa.

We are specialists in all renewable energy solutions and power back-up systems. We are majorly involved in designing and installations of solar water heating, solar lighting, power back-up systems, solar water pumping, wind power generation. We work closely with property developers, individual home owners and all other interested parties.
