

What is fenecon industrial L?

FENECON Industrial L is the future-proof battery storage platform for industrial applications as the basis for grid-serving energy management. The power storage system offers high reliability thanks to decentralized power electronics. *Project-specific customization with standardized FEMS apps.

What does fenecon do?

At FENECON, we pursue the clear vision of the 100% energy transition. We design our electricity storage and energy management solutions to be future-proof so that a complete supply of renewable energy for electricity, heat and mobility is possible.

What is fenecon energy storage?

The FENECON electricity storage systems use the OpenEMS-based smart energy management system FEMS to enable grid-serving charging and discharging up to intelligent sector coupling of electricity, mobility and heat. At FENECON, we pursue the clear vision of the 100% energy transition.

Who are fenecon's country partners?

Get in touch with your FENECON Country Partner. Our valued partners in Czech Republic, Sweden and the Netherlands are responsible for service and for the distribution of our products in their region. If you want to drive the Energy Journey with FENECON, rely on one of our Country Partners:

If you want to drive the Energy Journey with FENECON, rely on one of our Country Partners: BENNEX, Sellpower, ELINTA and NOE Energy Solutions, with experienced contractors, provide all necessary information on our battery energy storage systems with the intelligent energy management ...

FENECON Industrial L Hohe Leistungs- und Energiedichte. MIETEN @ FERESTO. Der nachhaltige Industriespeicher. Key Facts: . Leistung: 736 kW. . Gesamtkapazität: 1.288 kWh. Benefits: . Lastspitzen kappen: hohe Leistungspreise und Netzausbau vermeiden* . Eigenverbrauchsoptimierung* . Teilnahme am Energiemarkt: Schnittstelle zu verschiedenen ...

FENECON Industrial L Hohe Leistungs- und Energiedichte. The modular industrial battery energy storage system. Key Facts: . Power*: 92 up to 704 kW. . Capacity: 246 up to 656 kWh. Benefits: . High power and energy density. . Modular, decentralized concept. . Peak-Shaving: avoiding high power prices and grid expansion**

Its integrated, scalable battery storage platform Industrial L enables an alternative use for surplus ev batteries

as part of the energy market. With its high energy density and internal liquid cooling, the Industrial L achieves an output of 736 kilowatts (kW) and has a total capacity of 1.28 megawatt hours (MWh).

FENECON Industrial L Hohe Leistungs- und Energiedichte. RENT @ FERESTO. The sustainable industrial battery energy storage system. Key Facts: . Power: 736 kW. . Nominal capacity: 1,288 kWh. Benefits: . Peak-Shaving: avoiding high power prices and grid expansion* . Self-consumption optimization* . Participation in the energy market:

If you want to drive the Energy Journey with FENECON, rely on one of our Country Partners: BENNEX, Sellpower, ELINTA and NOE Energy Solutions, with experienced contractors, ...
