

What incentives are offered in Fiji?

Incentives are offered to encourage investments in energy generation through renewable energy sources and to reduce reliance on fossil fuels. Fiji has untapped renewable energy resources such as hydro, wind, biomass, solar, and geothermal, which can be used for energy generation.

How does Fiji generate electricity?

Close to 60 percent of Fiji's electricity generation is derived from hydropower, while remote areas and outer islands are dependent on imported fossil fuels and biomass. Fiji's 20-year National Development Plan calls for all power to be generated from renewable sources by 2030.

How can Fiji meet its energy needs?

In line with this plan, assessments have shown that a combination of solar, wind, geothermal, marine, biomass, and biofuel could be used to meet Fiji's energy needs. Currently, as much as 40 percent of Fiji's power is generated from diesel and heavy fuel oil, which is purchased via local companies from Singapore-based suppliers.

What are the challenges faced by Fiji's energy sector?

The challenges faced by Fiji's energy sector are largely due to its geographical environment and small market size. Close to 60 percent of Fiji's electricity generation is derived from hydropower, while remote areas and outer islands are dependent on imported fossil fuels and biomass.

Who is the largest consumer of energy in Fiji?

The transport industry is the largest consumer of energy, followed by the commercial, industrial, and domestic sectors. Energy Fiji Limited (EFL) is the main generator and distributor of grid-based power to an estimated 90 percent of the population on the main islands of Viti Levu, Vanua Levu, and Ovalau.

What is Fiji's energy policy 2023-2030?

Currently, as much as 40 percent of Fiji's power is generated from diesel and heavy fuel oil, which is purchased via local companies from Singapore-based suppliers. An objective under Fiji's National Energy Policy 2023-2030 is to introduce import tax on heavy fuel by 2024, followed by its complete ban by 2030.

2 ???· The launch of the hydrogen dual-fuel generator demonstration project in Lautoka will strengthen the private sector partnership between Fiji and Japan, says Japanese Ambassador Rokuichiro Michii.
