

The Ayem&#233; Plaine 120 MW solar plant, Central Africa's largest, is set to be operational by October, boosting Gabon's renewable energy transition and increasing Libreville's power supply.

Solen SA Gabon had signed a framework agreement with the government of Gabon back in March 2022 to construct a 120-megawatt peak (MWp) solar photovoltaic project in Ay&#233;m&#233; Plaine, a region about 30 kilometres from the capital Libreville.

This beautiful developing country has many roads that are not lit, especially in rural areas. The operational cost of infrastructures allowing the deployment of traditional lamps in a wired network for maintenance is too expensive. According to figures from Gabon's Ministry of Water and Energy, the country's electricity access rate averages ...

The Ay&#233;m&#233; Solar Power Station is a proposed 120 megawatts solar power plant in Gabon. The power station is under development by Solen, an independent power producer (IPP). The solar farm will be developed in two phases of 60 megawatts each. The energy generated at this power station is expected to be sold to the Energy and Water Company of Gabon (Soci&#233;t&#233; d'Energie et d'Eau du Gabon) (SEEG), for distribution in Libreville, the capital city of the county and its surro...

Solen SA Gabon, a subsidiary of Solen Renewable Dubai, has just launched the construction of the Ay&#233;m&#233; Plaine photovoltaic solar power plant, a locality located some thirty kilometres from the capital Libreville. The future facility will have a ...
