How much does a 6kW Solar System cost?

We will walk you through the cost, size, and practicality of a 6kW system before you decide to buy. How much does an average 6kW solar system cost? Based on the average cost of solar in 2024, a 6 kW solar system in the U.S. will cost about \$18,000. With the 30% federal tax credit, the solar system price drops down to about \$12,000.

How many solar panels are needed for a 6kW system?

The number of solar panels needed for a 6kW system will depend on the size (output) of the panels used in the installation. As an example, if 415 watt panels are used, then a 6kW system will consist of 15 modules, or 16 modules for a 6.6kW array.

How much roof space does a 6kW Solar System need?

The roof space needed for a 6KW system depends on various factors, including the type and efficiency of the solar panels used. A standard 6KW system typically requires approximately 300-600 square feet of roof space. However, it is essential to consult with a solar professional to accurately assess the specific requirements for your installation.

Should I buy a 6kW Solar System?

And if you have a family of five to six people living in a large house with multiple appliances to power, then a large solar power system makes sense. A 6kW solar system should suffice most of your energy needs, but these are expensive, and you must consider multiple aspects before making an investment.

How much power does a 6kW Solar System produce?

That means if you do not have 265 square feet, higher efficiency panels can help you reach a 6kW solar array. How much power does a 6kW system produce? A 6kW system will produce about 400 to 900 kWh of electricity a month, meaning the amount of energy produced ranges between 4,800 to 10,800 kWh per year.

What is included in a 6kW Solar System?

A 6kW solar system typically includes up to 24 solar panels (250W), DC-to-AC inverters, grid-tied inverters, micro-inverters or optimizers, rack mounting system, cabling, hardware, instructions, and permit plans.

On average, solar panels cost \$8.77 per square foot of living space, after factoring in the 30% tax credit. However, the cost per square foot varies based on the size of the home.
