

Grenada solutions solar

Elcics Ltd. specializes in the design and installation of solar energy solutions for residential and commercial clients. We are experts in renewable energy systems, helping you go green with ...

Lightwork Power Caribbean is based in Grenada and we design and install systems that are designed with all the Caribbean considerations, codes and characteristics in mind. Quality equipment installed by our qualified electricians with zero shortcuts.

A solar electric system converts sunlight into electricity using solar cells. Solar panels can be mounted on rooftops or the ground, and convert particles of light energy, known as photons, into direct current (DC) electricity. An inverter changes DC power into alternating current (AC) to power your home or facility. Solar is a proven technology.

Grenada has a high solar potential and set a renewable energy mix target of 100% by 2030. Presently Grenada's energy mix is comprised of just 1.5% renewable energy on the public grid. Its electrical demand peaks at 33MW and its electricity prices are high relative to ...
