

Henan Province Steel Co Ltd transports wind power for electricity generation

Will GE build a 715 MW wind farm in China?

Shanghai,China,November 6,2019 - GE Renewable Energy and China Huaneng Group Co. Ltd. (known as "China Huaneng") today signed an agreement at the China International Import Expo (CIIE) to build a 715 MW wind farm in Puyang,Henan Province,China.

Which is the largest wind-storage integrated power generation project in Henan province?

The project also synchronized the construction and operation of a 100 MW/200 MWh energy storage power station,making it the largest wind-storage integrated power generation project in Henan province in terms of scale and the highest proportion of new energy generation and storage.

Does China Huaneng have a wind farm?

China Huaneng has longstanding expertise in developing wind farms,and the scale of the Puyang project will surpass a previous cooperation between GE and China Huaneng - the 151 MW Huaneng Dali Longquan wind project in Yunnan - which uses GE's 2.75-120 turbine,the largest onshore wind turbines in China at the time.
