

What is needed to install solar panels on UK homes?

Here's a quick guide to what's needed to install solar panels on UK homes: An installer should visit to determine if the property is suitable for solar panels. They will look at the size and orientation of the roof to decide the best location and angle for installing panels.

How do I install a solar panel?

Installing your solar panel is a straightforward process though calling in professional installers is recommended. Making sure these installers are accredited by MCS is highly important, so as to ensure a high standard of installation. A solar panel will be most effective if you have a south-facing roof.

Do I need planning permission to install solar panels on my roof?

When considering the installation of solar panels on your roof, it's critical to understand if you need permission. In the UK, solar panel installations often fall under "Permitted Development," meaning you typically won't need planning permission.

Can a solar panel be installed on a south-facing roof?

A solar panel will be most effective if you have a south-facing roof. This will ensure maximum sunlight reaches the panel. You will also have to make sure that your roof can support a panel, and that it has a large enough area for panel installation. Under Permitted Development Rights, you won't require formal permission to install a solar panel.

How does a solar panel installation work?

The installer will have to lift some of the roof tiles to fix the anchors to the rafters in the loft. This will give the solar panel mounts a stable foundation, and will make sure they don't get damaged in stormy weather. Once the roof anchors have been fixed to the property, the installer will attach the solar panel mounting system to them.

Can solar panels be installed without planning permission?

Solar panels need to receive ample sunlight throughout the day and where possible should not be obstructed by shading from trees or other buildings. Most residential properties in the UK can have solar panels installed without planning permission as they are considered to be a 'permitted development'. The exceptions are:
