

A \$53.2 million minigrid was commissioned on Niuafu'ou, Tonga's northernmost island, to provide clean, reliable power 24 hours a day. In Micronesia, Yap island ...

In partnership with project lead Entura, the consulting arm of the Australian utility Hydro Tasmania, HOMER Energy is focusing on how to use mini-grids to bring electricity to dozens ...

PALIKIR, March 21st 2023 (FSMIS)--On March 20th, 2023, His Excellency David W. Panuelo--President of the Federated States of Micronesia (FSM)--attended the groundbreaking ceremony for the FSM Sustainable Energy Development & Access Project's (SEDAP's) three new generators at the Nahnpohnmal Power Plant in Pohnpei State. Funded by the ...

Battery Storage applications served with the purpose of peak shaving, solar energy smoothing, frequency regulation, and back-up emergency power for the island ...

PALIKIR, March 21st 2023 (FSMIS)--On March 20th, 2023, His Excellency David W. Panuelo--President of the Federated States of Micronesia (FSM)--attended the ...

The small island nation of Palau in the western Pacific Ocean has moved a step closer to having what is said to be the largest ever microgrid spanning diesel, solar and ...

In partnership with project lead Entura, the consulting arm of the Australian utility Hydro Tasmania, HOMER Energy is focusing on how to use mini-grids to bring electricity to dozens of island villages in the Federated States of Micronesia. /The specialist power and water consulting firm Entura has been engaged by the Asian Development Bank to ...

Dubbed ARMONIA, the microgrid will consist of a 45MWh energy storage system, 35MW of solar energy generation and diesel generators to give the Palau grid system an overall installed power of more than 100MW. Construction should begin by the end of 2018, with commissioning taking place before the end of 2019.

ITP has been engaged as Owner's Engineer for the installation of a battery storage system on Kosrae, Federated States of Micronesia. Known as the island of the Sleeping Lady, Kosrae is ...

The small island nation of Palau in the western Pacific Ocean has moved a step closer to having what is said to be the largest ever microgrid spanning diesel, solar and battery energy storage. A 30-year power purchase agreement (PPA) has been signed with France-based ENGIE EPS, a microgrid and energy storage specialist arm of power giant ENGIE.

A \$53.2 million minigrid was commissioned on Niuafo'ou, Tonga's northernmost island, to provide clean, reliable power 24 hours a day. In Micronesia, Yap island seeks bids on a 79 kW solar plus storage minigrid system.

PALIKIR, March 21st 2023 (FSMIS)--On March 20th, 2023, Senior officials of the Federated States of Micronesia (FSM)--attended the groundbreaking ceremony for the FSM Sustainable ...

Battery Storage applications served with the purpose of peak shaving, solar energy smoothing, frequency regulation, and back-up emergency power for the island locations. The Micronesian government sought out PV and BESS for a grid-tied solution to support (PCU) Micronesia's power supplier.

Dubbed ARMONIA, the microgrid will consist of a 45MWh energy storage system, 35MW of solar energy generation and diesel generators to give the Palau grid system ...

The Federated States of Micronesia are investing in solar micro-grids and battery energy storage systems as well as capacity building to increase self-sufficiency and reduce emissions. On the ...

PALIKIR, March 21st 2023 (FSMIS)--On March 20th, 2023, Senior officials of the Federated States of Micronesia (FSM)--attended the groundbreaking ceremony for the FSM Sustainable Energy Development & Access Project's (SEDAP's) three new generators at the Nahnpoohnmal Power Plant in Pohnpei State.
