

Hong Kong's three major photovoltaic panel stock codes

How to promote the installation of solar photovoltaic systems in Hong Kong?

To facilitate the attainment of this objective and promote the wider installation of renewable energy systems by private sector on their land and properties in Hong Kong, Lands Department ("LandsD") has introduced facilitation measures on the installation of solar photovoltaic ("PV") systems¹ in private developments² under lease³. 2.

Which PV systems are grid connected in Hong Kong?

as below: Standalone Systems Grid-connected PV Systems Hybrid PV systems Most of the PV systems in Hong Kong are grid connected. Grid-connected PV systems shall meet grid connection

Where can I find guidance notes for solar photovoltaic (PV) system installation?

The "Guidance Notes For Solar Photovoltaic (PV) System Installation (December 2022)" [PDF format (15.33MB)] can be downloaded from the HK RE Net website of the Electrical and Mechanical Services Department. In Hong Kong, the primary use of solar energy is to provide hot water for facilities with heating demand or to generate electricity directly.

What should a property owner know about solar PV systems?

The lot or property owner should ensure that the electricity generated from the proposed solar PV systems would not be significantly in excess of that normally required by the occupiers concerned and for the building or accommodation within the lot that it serves. The space underneath the solar PV systems shall not in any event be enclosed.

What is solar energy used for in Hong Kong?

In Hong Kong, the primary use of solar energy is to provide hot water for facilities with heating demand or to generate electricity directly. Some small-scale photovoltaic and wind systems have been installed in remote areas to generate nominal electrical power for lighting and on-site data recording equipment.

What was HK Solar Group's consolidated revenue in 1H2022?

During 1H2022, the Group achieved consolidated revenue of HK\$9,697.5 million mainly from its two core business segments of solar glass and solar farm, representing a 20.1% increase YoY. Gross profit was HK\$3,302.9 million (1H2021: HK\$4,469.6 million) and gross profit margin was 34.1% (1H2021: 55.4%).
