

How long can the barcode locker be preserved

Does my barcode expire?

No, your barcode will never expire. Once the barcode is issued to you, it will never be issued to anyone else again and it is yours for life. Are there Annual or Renewal fees that I will have to pay for my Barcodes? No, all of our fees are one-time only and you never have to pay any renewal fees or future fees of any kind.

Will my Barcode be scannable?

Yes. As long as the proportions of the bar code we e-mail to you are preserved and as long as it is printed at 300 dpi or higher, your bar code will be scannable. What do I need to do after I receive my Barcode. When you meet with your retailer, they will ask you what you want the product name, price, etc. to be.

Can a barcode be pre-printed?

For example: If the product requires multi-colour graphics and a barcode with dynamic data, the graphics could be pre-printed using traditional printing presses and leave a blank portion of the label for digital printing inline during production and packaging.

Why do retailers need a barcode?

The reason you need a barcode is that retailers need to be able to identify your details about your product quickly (e.g. prices, inventory levels, etc.) Most retail checkout counters have barcode scanners that are linked to Point of Sale software. What information is contained in a Barcode? A Barcode is just a number.

Where can I implement barcode identification?

The most important implementation resource for barcode identification are the over 100 GS1 Member Organisations in countries all around the world. This guide takes new barcode users through the basic steps they must take to begin using barcodes.

Where can I use a barcode?

This includes Canada, Australia, the UK, Europe, Asia, Mexico, South America, the Middle East, and anywhere else that they use bar codes. The only limitation that we have found is that two major retail chains in the US (Wal-Mart & Kroger's), and Woolworths Australia require you to be registered with a barcode organisation.
