

# How much is a solar system for a house Guyana

How much solar energy is available in Guyana?

As of 2018, the total installed capacity for Solar PV in Guyana is 4.63 MW, with an estimated annual generation of 7.16 GWh. Solar energy is used for several purposes in Guyana, including drying agricultural produce, irrigation, ICT, and to improve electricity access in rural areas.

Is Guyana a good place to install solar PV?

Most locations across Guyana have excellent solar insolation levels and are ideal for solar PV generation. As of 2018, the total installed capacity for Solar PV in Guyana is 4.63 MW, with an estimated annual generation of 7.16 GWh.

How many solar PV farms will Guyana have?

Guyana Power and Light Inc. (GPL) is preparing plans for three utility-scale solar PV farms totaling 30 MW for the national grid in the long term, as well as a 0.75 MW Solar PV Farm at Wakenaam and a 4 MW Solar PV Farm at Onverwagt in the near future.

How much solar power does the government have?

The Government has solar photovoltaic (PV) systems with a combined capacity of 3.02 MW on the rooftops of 175 public or government buildings.

Where are solar energy installations taking place?

Solar energy installations are primarily taking place in the hinterland/remote areas of the country. Under the Unserved Areas Electrification Programme, a number of communities have received solar photovoltaic's home systems. In 2007, several Regions benefitted from solar photovoltaic projects, some of which are listed below:

What is the main source of energy in Guyana?

Currently, imported petroleum-based fuels are the main source of energy in Guyana.

We offer complete solar power solutions for homes and businesses across Guyana. Our experienced solar installers provide custom solar systems using reliable, proven solar components from leading brands.

We currently offer three solar power packages and can also customise systems specifically for you! Contact us here for more details. Our Solar Power (PV) systems are made up of components of the highest quality.

Solar Direct was established in 2013 and has become a major supplier of quality residential and commercial solar and backup systems at the most affordable prices in Guyana.
