

How much is the subsidy for a photovoltaic panel

Are UK government grants available to reduce solar panel costs?

A detailed look at UK government grants available to reduce solar panel costs. Solar panels are becoming an increasingly common option for UK households, giving people the option to produce their own green energy. One issue that many people face, however, is the price of solar panels and organising installation.

How much money can you save with solar panels?

The average home can save more than £1,100 every year with solar panels! There are several solar panel grants and incentives currently available in the UK, aimed at reducing the cost of solar panels, your households' energy bills and encouraging the adoption of renewable energy. How much could you get?

What does a solar panel grant cover?

Solar grants often only cover specific solar energy system components such as solar panels, inverters and installation costs. Battery storage or advanced monitoring systems are typically excluded from these funding programmes. How much can I save with a solar panel grant?

Should you apply for a solar panel grant?

By applying for a solar panel grant, you could receive heavily discounted or even free solar panels, resulting in annual energy bill savings upwards of £1,040. We recently conducted a survey of over 1,540 Independent readers who own solar panels* to understand how they made the most of the solar panel funding available to them.

What if I don't qualify for a solar panel grant?

If you don't qualify for any solar panel grants, there's another way to start benefiting from solar electricity with no upfront cost. Sunsaver Plus, the UK's first solar subscription, will provide you with best-in-class kit, all in one easy solar & battery package that comes with a 20-year Sunsaver Guarantee.

Are there government grants for solar panels?

There are currently three government grants available to help with the upfront costs of solar panel installation: ECO4: Funding for energy-efficient retrofits to fuel-poor households, or ones with occupants on certain benefits. Each grant has different eligibility criteria, as well as the benefits they provide.

The Government plans to reduce the grant by up to £300 every year, as it expects the cost of solar panel systems to reduce over time. It is intended that the grant will end in 2029. The ...
