

Hoymiles storage Puerto Rico

How do I install a hoymiles balcony solar storage system?

HMS-W series keeps your solar running and the S-Miles Home app tracks your data day and night. It takes only a few seconds to install the Hoymiles balcony solar storage system. No worrying about complicated wiring at all! All you need do is unplug the microinverter and connect Hoymiles MS between the microinverter and the power. Simple as that.

Does the hoymiles MS energy storage system work in parallel?

No problem, the Hoymiles MS energy storage system supports two units running in parallel. So you'll get 4.48 kWh of power altogether to get an energy boost for your home. You start saving straight away. You can use data from the Hoymiles S-Miles Cloud to maximize your savings, while the built-in battery gives you extra energy security.

Why should you choose hoymiles?

In the coldest, harshest environments. From compact balconies to sprawling installations. With Hoymiles, get tailored solar and storage solutions that you can count on- anywhere in the world. Save the planet and your energy bills. Gain true energy independence, so you can feel right at home with reliable solar and storage solutions.

How can hoymiles help your business?

Drive down your business energy costs with Hoymiles' efficiency and quality. We'll help you make informed decisions to maximize your solar yield, whatever your environment. Boost business with quality, ease, and assurance: less time on installations and repairs, more on growth.

How smart is the hoymiles MS?

The Hoymiles MS is smart enough to maximize the value of your energy harvest. You can set the most cost-efficient times for using or storing your solar power and avoid peak prices. Compatible with Shelly smart plugs and meters, the product keeps you on top of your load stats. The result? Zero waste, more yields and less energy bills!

What is hoymiles MS?

Zero waste, more yields and less energy bills! It's more than a clean energy source for your daily use. Hoymiles MS also acts as a battery backup for your home as well as a portable power station that works on its own. The built-in 2.24 kWh battery lets you store excess energy and use it later.
