

Integrated energy solutions Argentina

Does Excelerate Energy import LNG into Argentina?

Since the arrival of Excelerate Energy's FSRUs to Argentina in 2008 in Bahía Blanca and then in 2011 in Escobar, one hundred percent of the imported and regasified LNG into the country has been through Excelerate's FSRUs.

Where is BA Energy Solutions located?

BA Energy Solutions (BAES) has offices in Argentina, Peru; and Chile. These offices act fully integrated using the optimal resources to build teams perfectly suited to: 1) the kind of experience needed, 2) the geographical focus of the job, 3) the customer logistics requirements, in terms of meetings and results presentation.

Why does Argentina need a natural gas FSRU?

Given the high seasonality of Argentina's natural gas consumption, LNG has played a critical role in meeting the country's energy needs. During peak winter demand, Excelerate's FSRUs provide energy security to the national grid, ensuring natural gas is available to power and heat homes and businesses.

Does Buenos Aires have a 'pasate a led' program?

In it, the City of Buenos Aires was included as one of the case studies within the category of Public Commitment for an inclusive transition with the 'Pasate a LED' program, implemented in 2019. The report mentions the actions carried out by the City, which included the distribution of one million LED lights, reaching almost 225,000 homes.
