In July 2021, GE announced an energy transition plan for Iraq that includes a potential 20 per cent reduction in carbon dioxide emissions and the generation of an additional 10GW of power by capturing flared gas.

In addition, GeePower's energy storage solutions provide reliable backup power for agricultural facilities. In the event of a power outage or fluctuation, the stored energy can seamlessly support critical operations, ensuring minimal disruption to farm activities.

The Government of Iraq has awarded two power generation and transmission contracts, valued at more than \$1.2bn, to General Electric.

GeePower manufactures lithium polymer batteries, cells, and battery packs. Offers lithium iron phosphate pouch cells and solar batteries with 3.2 V and 5 to 85 Ah capacity; lithium battery packs with 3.2 to 96-volt potential capacity for e-vehicles.

Iraq gee power battery

With years of experience in solar power generation and energy storage, Geepower delivers high-performance, reliable products. Our systems are designed to optimize energy use, ensuring efficient power storage and long-lasting performance in every project.

Maya factory is an international lead- acid battery manufacturer that operates under international standards. a market leader in Iraq, our facility is equipped with cutting-edge European technology. Robots complete all tasks autonomously to preserve product consistency.
