

The Zambia Renewable Energy Association (ZARENA) is an interest group for renewable energy stakeholders in Zambia. ZARENA's main objective is to foster and promote the large-scale adoption of renewable energy in Zambia.

Major source of energy in Zambia is wood fuel (i.e. firewood and charcoal), with the largest consumer group being households in both rural and urban areas; Electricity installed capacity is 2,878.6MW

IRENA has pursued strategic, results-oriented partnerships with African organisations and development partners, leading to concrete outcomes and impact on the ground. Strong linkages to the regional programmes and initiatives have heightened synergies in the pursuit of Africa's energy transformation.

The International Renewable Energy Agency (IRENA) is also actively supporting the development of renewable energy in Zambia. In 2017, IRENA partnered with the Zambian ...

Zambia relies primarily on rain-fed hydropower generation for its consumption, which makes it vulnerable to changes in weather patterns. Zambia currently generates 2,800 megawatts ...
