Is it time to install solar panels in the Manx?

Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity). There is something very satisfying about receiving an energy bill from Manx Utilities which is not only zero, they might pay you because of excess energy sold to the grid. There has never been a better time to install solar.

Planning permission is being sought to put the solar panels in seven sets of 100. The roof would be made of sheet metal, bonded to insulation, which allows solar panels to be installed more easily than if it was on traditional slate. The application is currently pending consideration and can be found here.
