Who owns greencells Group Holdings?

To keep up with the strong market growth, Hoffmann and Kisauer founded Greencells Group Holdings, based in Abu Dhabi, with investor group Zahid in 2018. Greencells plans, finances and builds solar parks all over the world.

Who is greencells GmbH?

He found what he was looking for at Conergy, one of the largest solar companies in Germany at this time, where the event employees were started to deploy on a solar construction site. That was the beginning of the company Greencells GmbH, which he founded together with Marius Kisauer in 2009. Initially, Greencells only installed solar modules.

Will Kenya's new electric line become an African example of green transport?

Kenya hopes the new modern system and the electric line becomes an African example for efficient green transport. One evening in central Nairobi, Carolyn Omondi stands warily on the side of a busy highway, waiting to start her long trek home to the Kibera informal settlement after a full day's work.

Does Kenya have geothermal power?

Geothermal operations produce more than 40% of Kenya's power. Since the 1950s, "Kenya is the pioneer of geothermal progress in Africa," says Peketsa Mangi, who is standing in the middle of a lush field in Kenya's Great Rift Valley with plumes of thick, white, noisy steam belching up from the earth behind him.

Does Kenya have a partner in the European Investment Bank?

This is the innovative Kenya that found a partner in the European Investment Bank. Nairobi is the EU bank's regional hub, with nearly 30 staff members working for its EIB Global development arm. The East Africa hub serves Kenya, Ethiopia, Sudan, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Eritrea, Djibouti and Somalia.

Greencells Group, based in Saarbrücken, develops, finances and builds solar power plants worldwide. With an installed capacity of more as 2.4 gigawatts, the company is one of the ...

The new electric bus line is a measure of how closely Kenya's future is linked to climate action and innovative technologies. A leader in renewable energy, the country is increasing its investments in green technology, as well as encouraging businesses to be innovative and more willing to look across the continent for opportunities and growth.
