Liberia product solar

What is the sustainable power source in Liberia?

In Liberia, sustainable power is harnessed from tight-knit communities to provide life-changing products and services, starting with access to solar electricity. Electricity creates opportunities -- opportunities to learn, communicate, start a business, and build a better life.

How many people in Liberia have access to electricity?

Fewer than 1% of rural Liberianshave access to electricity. LIB Solar focuses on providing reliable,safe electricity to these communities by mobilizing communities instead of selling to individual customers. Each community receives high-quality solar systems that provide lighting and phone charging.

Why is electricity important in Liberia?

Electricity is important in Liberia because it creates opportunities, such as learning, communication, starting a business, and building a better life. Unfortunately, less than 1% of rural Liberians have access to electricity. However, reliable, safe electricity is now affordable for nearly anyone. LIB Solar focuses on mobilizing communities instead of selling to individual customers to achieve economies of scale.

How much solar energy potential does Liberia have?

Liberia has a high and consistent potential for solar energy,with an average level of 1,712 kWh/m2/year,which could generate 1,400 to 1,500 kWh/kWp. Some 43% of the land is covered with forests (41,790 square kilometers,World Bank 2015),but this does not affect the solar energy potential.

Did Power Africa grant a solar energy project in Liberia?

Power Africa, through the United States Agency for International Development (USAID) awarded grants totaling \$669,330 to five solar energy companies operating in Liberia.

How much solar radiation does Liberia have?

In Liberia,monthly solar radiation on a horizontal surface ranges from about 4 kWh/m² /day during the rainy season to 6 kWh/m² /day during the height of the dry season. This refers to the amount of solar energy that falls on a surface in Liberia each month.
