

Liechtenstein ardandra storage and solar project

Who owns ardandra solar & storage?

One of Octopus Investments Australia's Queensland assets is Ardandra Solar and Storage. Acquired earlier this year, it was the single largest renewable energy generation project under construction in Australia as of August, according to a report from the Clean Energy Council (CEC) trade group.

Where is octopus' ardandra storage & solar project located?

The Ardandra storage and solar site, as it is referred to, sits adjacent to Octopus' existing Dulacca Wind Farm and will connect into the same line, the company says. That is, the projects will sit in Queensland's south, just under 400 km west of Brisbane.

Where will ardandra & Dulacca be built in 2025?

That is, the projects will sit in Queensland's south, just under 400 km west of Brisbane. "When constructed in 2025, Ardandra in combination with Dulacca will create the 'Western Downs Energy Park,'" Octopus Australia says, though it is not clear whether 2025 will mark the beginning of construction or the project's completion.

Who owns Queensland's largest battery project?

Renewables player Octopus Investments Australia, a subsidiary of UK-based Octopus Group, has purchased Queensland's largest battery project, the 500 MW / 1 GWh Blackstone project just outside of Brisbane.

What is Australia's biggest battery project?

While the Blackstone battery project is almost double the size of Australia's current biggest battery, the 300 MW / 450 MWh Victorian Big Battery, there is a swath of incredibly large battery projects coming down Australia's pipeline. Image: Firm Power

The unit of UK-based Octopus Group said on Tuesday it will build the Ardandra photovoltaic (PV) in proximity to its 180-MW Dulacca wind farm, which went live in April. The new plant is expected to be installed by 2025 and will use the same connection line as the wind park located within the company's Western Downs Energy Park.

The unit of UK-based Octopus Group said on Tuesday it will build the Ardandra photovoltaic (PV) in proximity to its 180-MW Dulacca wind farm, which went live in April. The ...

The 175MW solar project, with an anticipated 400MWh of battery storage, is expected to be constructed by 2025 and, together with the Dulacca wind farm, will form the biggest integrated multi ...
