The system comes pre-assembled and once on site, the container only needs to be loaded with battery modules and connected. With an above-average lifespan of up to 30 years, the new container storage system comes with a capacity guarantee of 10 years.

The Intensium® Max 20 High Energy (LFP) is Saft's unmanned and ready to install Energy Storage System (ESS) in a 20-foot container, enabling utility-scale storage solutions for grids, ...

If you're shipping multiple wet batteries, enclose each in its own leak-proof container (e.g., a sealed plastic bag or container) with absorbent material, such as vermiculite or acid-absorbing pads. Separate them within the box using non-conductive dividers (e.g., sturdy cardboard or foam) to prevent them from touching and potentially short ...

Liechtenstein container baterias

The Intensium® Max 20 High Energy (LFP) is Saft's unmanned and ready to install Energy Storage System (ESS) in a 20-foot container, enabling utility-scale storage solutions for grids, renewables and industries.

On top of that, you could also end up paying regulatory fines or losing shipping privileges if battery shipping regulations are violated. Due to such risks, lithium batteries are classified as Class 9 dangerous goods, while other types of batteries can fall into other classes of dangerous goods. This means they are subject to regulations on packaging, labelling, quantity ...
