

"If we can install solar PV systems on only 20 per cent of these rooftops, we can reduce carbon emissions in Macao by 7 to 8 per cent," he says, adding that the sizable rooftops of integrated resorts are ideal sites for PV systems. The Macao government also sees an opportunity to increase solar energy.

Melco Resorts said in a written announcement issued on Wednesday that the system comprised 18,000 photovoltaic panels covering almost 30,000 square metres (329,000 square feet) of rooftop at its City of Dreams and Studio City casino resorts.
